### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 112***

1. Claims 1 and 3-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 5, it is unclear what is meant by "the bottle" of said reservoir. It appears that applicant may mean "bottom".

In claim 4, last line, there is a lack of antecedent basis for the well or second reservoir. This renders the claim confusing as it is unclear if the claim depends from the proper claim or should positively recite the structures.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 3-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Witt, Jr '450.

Witt, Jr. shows a reservoir/bottle 10, 14; spray mechanism 28 having a trigger; dip tube 30 being below a portion of the trap means; trap means 20 being a baffle fixed to opposite side walls, the top part of the baffle as seen in Figure 9 being the second means/baffle for maintaining the dip tube in place; well/second reservoir 22; grip portion 24; and opening at 26.

***Response to Arguments***

4. Applicant's arguments filed 5/5/2005 have been fully considered but they are not persuasive.

Applicant contends that the 112, 2<sup>nd</sup> paragraph rejection has been overcome. Antecedent basis for the structures in question in claim 4 is found in claim 3, not claims 1 or canceled claim 2.

Applicant contends that when the bottle of the '450 patent is tilted downwardly **past** the horizontal, fluid would run along the front wall of the bottle (and that applicant has solved this problem). However, this is not a claimed feature. The claims merely require that the bottle to go from vertical to horizontal, not past it. Witt would clearly work under the claimed circumstances. As all claimed features have been addressed, the rejection stands.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3754

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
